

OD Single-Mode Fusion Fiber Tray

Overview

The 12-Fiber transparent fusion splice tray is ideal for fusion splicing single fiber. The see through cover and mylar insert enable easy viewing when visual fault locator (VFL) testing and verification is performed to ensure cable continuity and determine pass or failure of splicing. Discover CommScope fiber splice trays, fiber optic splice trays, and a convenient fiber splice organizer.

OD Single-Mode Fusion Fiber Tray

SCF Splice Trays 48 heat-shrink single-fiber splices or

The trays are engineered to use with both loose tube and tight-buffered optical cables. Their generous size and craft-friendly design help prevent induced
