

OPPC optical cable box

Overview

Optical Phase Conductor (OPPC) Joint Boxes are designed to connect two OPPC fibre optic cables. They can be connected to a hanging insulator at suspension towers or in the loop between two. It is erected as an ordinary phase line in the power transmission line, which can avoid fatal problems such as strand breakage and fiber breakage caused by OPGW being struck by.

OPPC optical cable box

Metal Joint Junction Box, Splicing Box Manufacturer

The junction box supports, organizes, and protects optical fibers while ensuring their minimum bending radius is not exceeded. It's rated IP65 and provides entry for all
