Optimal Selection of Grounding Materials for Distribution Boxes

Optimal Selection of Grounding Materials for Distribution Boxes

GROUNDING OF UTILITY AND INDUSTRIAL DISTRIBUTION

In this workshop, we will demystify the concepts of grounding as applicable to utility networks and industrial plant distribution systems as well as their associated control equipment.

DISTRIBUTION BOX

Each DISTRIBUTION BOX and controller must be grounded. On the US market, a 5.26 mm² (10 AWG) ground wire must be used, and in all other markets a 6 mm² must be used.
