

Parameters of German Explosion-proof Distribution Boxes

Overview

The enclosures are certified Ex d IIB+H2 and Ex tb as well as "explosion-proof". They are available in many sizes, a wide range of operating elements and monitoring functions can be integrated. Lamps in mining also constituted another high fire risk for many years, because mine air mixed with methane – so-called firedamp – was able to. Our junction boxes, switches, sockets and plugs are cast from high quality brass or red brass.
