

Portable Zinc Material Elemental Spectrometer

Overview

This rugged 245x250x90mm portable spectrometer delivers fast, precise elemental identification in the field. The 50kV X-ray tube and high sensitivity Si-PIN diode detector provide accurate analysis of metal alloys, impurities, and more. The new SPECTRO xSORT handheld XRF boasts numerous new features and designs aimed at enhancing user speed, ease, and convenience, while also delivering advanced analytical performance.

Portable Zinc Material Elemental Spectrometer

Portable PMI analysis spectrometer for multi-element materials of zinc

The portable zinc brass alloy multi-element material PMI analysis spectrometer, Vanta analyzer, is crucial for material compliance planning in modern industrial environments, helping to ensure the
