Energy prices and costs in Europe

Wholesale and Retail Prices Energy Costs For Households and Industry Revenues from Energy Taxation and Taxes and Levies Imposed on Energy Products The 5th report highlights that European and global energy markets have been going through a severe crisis since 2020. Wholesale gas and electricity prices rose to historic levels before starting to fall in 2023, partly due to rapid EU joint emergency measures. Gas prices remained very high until the end of 2022, after which they gradually decreased See more on [energy.ecropa.eu](#) BIS Research

Europe Data Center Power Distribution Units and Power Supply Units

The market for power distribution units (PDUs) and power supply units (PSUs) in data centres across Europe is expanding quickly due to rising demand for intelligent, scalable, and energy-efficient power
