

RRU connection to terminal box

RRU connection to terminal box

Installation Guide

When installing the RRU power cable, connect the power cable to the RRU connector first and then to the power equipment connector. Incorrect connection sequence or reverse connection of positive

Exhibit 8 Manuals

The RRU remotely extends the reach of the RBS by up to 10 km. It is designed to be located near the antenna. A fiber optic cable connects the RRU to the RBS main unit or an expanded macro RBS.
