

Relay Protection Institute

Relay Protection Institute

Power System Protection & Relay Coordinate Course

Join 50Hz Academia's Power System Protection Course & Relay Coordination to master fault analysis, protection schemes, and relay setting techniques based on

[Read More](#)

Protective Relay Training - Basic Power System Protection

Protective relay training offers an overview of power system protection, relay schemes, digital and electromechanical relays, fault detection, coordination &

[Read More](#)

Modern Power System Protective Relaying

This Modern Power System Protective Relaying training course has been designed to provide a clear and perfect understanding of power system protection schemes and devices, including protection

[Read More](#)

PLC/HMI-Based Implementation of a Real-Time

In this work, we developed and assessed a PLC-HMI-based system to exercise students in protection relays covering overcurrent and over and

Power System Protective Relays: Principles & Practices

Protective relays and devices have been developed over 100 years ago to provide "lastline" of defense for the electrical systems. They are intended to quickly identify a fault and isolate it so the balance of

[Read More](#)

Protection of Electrical Power Systems (P1)

The course covers the application and testing of electrical protection in-depth and involves a number of practical exercises and demonstrations combined with classroom theory. A wide range of protective

[Read More](#)

The Essentials of Relay Protection and Control in Power

Learn power system protection and control concepts, protection schemes and relays, primary & secondary equipment, and electrical wiring with practical examples. 85
