

Router with fiber optic interface not found

Overview

Q: Why is my router not detecting the fiber connection?

A: Ensure all cables are securely connected, the ONT is powered on, and your ISP has activated the service. Fiber optic networks are celebrated for their speed and reliability, but even the best systems can encounter problems. When issues like signal loss, slow speeds, or intermittent connectivity arise, systematic troubleshooting is key. 5G single-mode with MikroTik RB5009UPr+S+ can I get internet connection, port forwarding and change DNS?

If yes witch type of SFP transceiver I can use?

Best Regards You can not use a standard ethernet or GPON SFP - these are normally just. This article describes steps to perform when SFP/SFP+ fiber link is not coming up.
