

SMA Multimode Fiber Customization

Overview

Depending on the specific needs of the user, SMA fiber optic cables can be customized in terms of cable length, connector types, and jacket materials. Thorlabs offers multimode circular-core step-index fiber optic patch cables with SMA905 (straight ferrule) connectors on both ends. A 1000 μm core diameter with a bonded hard polymer 1035 μm cladding supports 500-1100 nm operation. Choose from SC to SMA, SMA to ST and LC to SMA Fiber Optic Cables, multimode, duplex. Please use the check boxes and sliders to select certain features and narrow down your search to the specifications you need.

SMA Multimode Fiber Customization

Step-Index Multimode Fiber Optic Patch Cables: SMA to

Custom Cables Available Thorlabs offers multimode circular-core step-index fiber optic patch cables with SMA905 (straight ferrule) connectors on both ends. These
