

Safe City Data Center PDUIP67

Overview

This PDU meets the UL and IEC 62368-1 requirement for branch circuit protection through UL 489 rated magnetic-hydraulic circuit breakers or UL 248 fuses. Evenly distributes multiple phases of power to each outlet for simplified load balancing, reduced cord lengths, and better. Safe City Group is a regional leader in providing turnkey in-house public safety and national security solutions. The Mobile Control Room delivers all the features and technology of a fixed command and control center in an easily transportable module. The solution provides a variety of professional Safe City services, including planning, design, implementation, optimization, training, and customer support services, to assist customers in their safe city initiatives aimed to enhance city competitiveness as well as Information and Communications. From basic PDUs, to monitored and switched rack power distribution units, to locking receptacles, Vertiv's solutions will offer the power distribution you need, as well as remote monitoring and management of your assets' power usage, so you can rest assured everything is running at peak.
