

Secondary Distribution Box 380

Overview

It serves as the central hub for receiving and distributing electrical energy in low-voltage systems up to 380V. Designed for power plants, substations, industrial enterprises, and commercial buildings, the XL-21 provides robust control, protection, and monitoring for power and. Stackable, splash-proof housing made from a special rubber compound for continuous load. Resistant to a variety of oils, greases, gasoline and acids, UV and ozone radiation. Supplier highlights: This supplier mainly exports to Germany, Thailand, and Costa Rica, offering full customization, design customization, and sample customization services with a positive review rate of 90. Linergy power distribution blocks are for terminating wires and are designed to NEMA standards. The line side lug is rated to accept one #4 to 500 kcmil copper or aluminum wire. Three-Phase 380V Dual-Speed Control Cabinet Power Distribution Box with Smoke Exhaust Fan Fire Linkage Water Pump Equipment is a crucial component of electrical systems, playing a vital role in safe and efficient power distribution.
