

Sfp optical module lvpecl

Overview

The Small Form Factor Pluggable (SFP) transceivers are compatible with the Small Form Factor Pluggable Multi-Sourcing Agreement (MSA). This single mode module uses high performance 1310 nm FP laser and is compliant with Small Form Pluggable Plus (SFP+) specifications. 25G 1310nm 20km SFP Transceiver Module LVPECL Data Interface Meet Laser Class1 from China, China's leading product market sfp optical module product, with strict quality control fiber optic sfp module factories, producing high quality fiber optic sfp module Products. We have a design that needs to connect the SFP (PHY-less, LVPECL output) to a ZYNQ 7020's PL Bank directly and the ZYNQ I/Os will be configured to LVDS_25. Do we need a LVPECL/LVDS and a LVDS/LVPECL translator in between?

If so, what is the suggested signal. Microchip provides design solutions targeted to support next generation Ethernet switches, EtherCAT® industrial con-trollers and a 10/100 Industrial Ethernet MAC/PHY controllers.
