

# **Should enterprise core switches use CE or S**

## Overview

---

The switches connect to the Internet through an upstream router and connect to downstream access devices. The two 500s are used as core (they are also stacked), the other 8 200s are access floor/room switches. Selecting an enterprise switch in 2026 requires balancing three specific variables: Role-based performance (Deep Buffer for cores vs. PoE++ for edge), Protocol Interoperability (Standard LACP/OSPF/BGP), and Brand Strategy (Tier-1 for processing vs. If you're looking for the best enterprise core switches for 2026, I recommend considering options like the Cisco Catalyst 9300L with PoE+, the Cisco.
