

# **Solution Network Security Appliance QSFP28**

## Overview

---

It supports 2x 100GbE QSFP28 ports, providing high-speed network connectivity for data-intensive applications. It offers all-around security with optional TPM and a bypass function, with the latter available through our PNC series of OCP NIC 3. SFP, SFP+, SFP28, QSFP+, and QSFP28 modules are often seen as simple accessories. They represent the physical layer that allows firewalls, switches, and servers to communicate with each other. Maximize your HPE Networking Comware Switch Series 5960 High-performance, high-density, and backward-compatible switch with varied 400/200/100G connectivity options. OS Comware v9 offers enhanced software features such as Segment Routing MPLS, SR-V6, PTP/SyncE, egress ACL, egress rate limiting, and. Types of transceiver modules and network cables

Transceiver module type	Connector
QSFP28 module (transceiver)	QSFP28 optical transceiver module
MPO 12-strand or LC 2-strand QSFP28 DAC (copper cable for interconnecting devices)	1 - 5m. QSFP28 (Quad Small Form-Factor Pluggable 28) enables 100G transmission by aggregating four parallel 25G electrical lanes, delivering an optimal balance of bandwidth efficiency, power consumption, and deployment flexibility.
