

ZTP Thermal & Power

South Sudan Explosion-proof Power Distribution Box

Overview

Certifications: ATEX, IECEx, and UKEX certified for Zones 1, 2 (gas) and Zones 21, 22 (dust). 0 Smart Factory is a digitized and highly automated manufacturing facility that uses connected devices, machinery and production systems to continuously collect and share data. Data that can be used to improve processes as well as proactively address any issues that may arise along. Options range from Ex d (flameproof enclosure) to Ex e (increased safety) and Ex i (intrinsically safe) right through to Ex p (pressurized housing), as well as combinations of different explosion-protection types - always bearing in mind the most efficient solution for your application. Reliable power distribution increases both system availability and the safety of personnel and systems. An explosion-proof distribution box is a critical safety component engineered for use in hazardous environments where flammable gases, vapors, liquids, dust, or fibers may be present.
