

Starnet Small Busbar

Starnet Small Busbar

Busbar systems

The 40 mm busbar system is used in machine and installation distribution boards, meter cabinets and power distribution systems in the lower performance range up to 400 A.

Busbars small series & prototypes

For optimal results, we cut e-mobility components such as 5 mm thin copper busbars using a micro waterjet. This cold cutting process is ideal for temperature-sensitive materials. Furthermore, the

Busbars , Electrical Busbars & Copper Busbars , RS

Comb busbars are usually found in small distribution boards and switchgear panels used to distribute power to devices such as MCBs. They are also very useful in reducing the number of wiring

DC Busbar Systems for Reliable Energy Transmission

Customised for Industrial Versatility: Our DC busbar systems are designed to meet the specific needs of industries including Green Hydrogen production, rectifiers,
