

Swiss manufacturer of 800G hybrid optical and electrical cable

Overview

Announced today that it will unveil a full spectrum of 100G PAM4 400G & 800G optical transceiver and copper cable solutions at the European Conference on Optical Communication, September 19 through 21 in Basel Switzerland. Reichle & De-Massari AG (R&M) specializes in high-quality data and communications networks, offering a comprehensive portfolio of residential installation data cables and patch cords for home wiring. E fibre removes barriers to delivering 800G and beyond (Image: Acome) A new hybrid optical fibre cable design from Acome and Sumitomo Electric boasts 800G+ long-haul transmission speeds, cutting both cost and energy use. A new proposal for long-haul optical network cables aims to 'break through the glass ceiling' of data transmission limits to ensure the ever-growing demands of data centres can be supplied. The AEC cable complies with the specifications of the QSFP-DD800 type 2 MSA and QSFP-DD MSA.
