

Telecom Shelter Fixed

Overview

These shelters are constructed using FiberBeam Technology, which provides a lightweight yet durable construction and accommodates multiple frequencies for maximum signal reach and reception. Our telecom shelters are custom-built to meet the specific requirements of each project, ensuring optimal performance and protection for sensitive equipment. Experience unparalleled protection and reliability with Enviro Buildings ® telecom shelters, specially designed for ground site applications in challenging environments. Airport ICAO shelters, telecommunication shelters, GSM shelters, equipment containers, server rooms, VAR (Video).
