

The largest optical module manufacturer in Switzerland

Overview

As a trusted OEM partner, SwissOptic AG provides leading system manufacturers in the semiconductor industry with complex optic modules. These modules are used in inspection systems to analyze reticles, masks as well as structured and unstructured wafers. With a legacy of over 75 years, the company offers a comprehensive portfolio of surgical and vision care products designed to enhance sight and improve quality of life for individuals. Semiconductor Manufacturing forms part of the Hardware industry, which is the 21st most popular industry and market group.
