

Two-input three-output junction box

Overview

These junction boxes provide a rugged solution with an IP67 rating or greater, making them ideal for both indoor and outdoor applications. Products are available with M12, M8, 7/8", or ½-20UNF connectors. All product-related documents, such as certificates, declarations of conformity, etc. , which were issued prior to the conversion under the name Pepperl+Fuchs GmbH or Pepperl+Fuchs AG, also apply to Pepperl+Fuchs SE. Complete the Teleco solution and the electrical wiring system with junction boxes. A large variety of small enclosures: polycarbonate enclosure PK, aluminum enclosure GA, small enclosure KX, carbon steel in the terminal box versions with and without a flange, e-boxes, and bus enclosure.

Two-input three-output junction box

Instrument Junction Boxes

In this article we will look at the considerations and options available when specifying a junction box, and also at some of the documentation used by instrument
