Types of Explosion-Proof Electrical Distribution Boxes in Canada

Overview

Explosion-proof electrical distribution boxes can be categorized into three primary types: flameproof, gas-tight, and pressurized enclosures, each designed with specific key features to enhance safety in hazardous environments. In Canada these products must meet applicable international and regional standards such as IECEx, ATEX where required by project specification, and Canadian code or CSA-recognized. The complete LEDEX hazardous-location electrical catalog — junction boxes and enclosures, EYS / ENY sealing fittings, NEMA 7 + 4X push-button stations, and UNF / UNY union fittings. It applies to explosion-proof enclosures, parts of enclosures, and other related equipment.
