

# US Fiber Optic Channel

## Overview

---

Fiber-Optic Cable Market Report Prepared by P&S Intelligence, Segmented by Type (Single-mode, Multi-mode, Plastic Optical Fibre), Cable Type (Loose Tube, Tight-Buffered, Ribbon, Armored, Simplex & Duplex Cable) . About 17% of US broadband subscribers use fiber optic connections, a modest adoption rate compared to many European and Latin American markets like France (67%) and Brazil (75%). But US telco fiber subscribers grew double digits in 2023 and made up about 63% of the entire telco subscriber base. The FCC National Broadband Map displays where Internet services are available across the United States, as reported by Internet Service Providers (ISPs) to the FCC. The map will be updated continuously to improve its accuracy through a combination of FCC verification efforts, new data from Internet.
