

Use of 1 5-meter fiber optic patch cord

Overview

☐☐ Rule of thumb: Use single-mode for long reach; use multimode for short distances in the same data center. At ZION Communication, we design and manufacture a full range of fiber patch cords for: This guide will help you quickly understand the main types of fiber patch cords and how to choose the right solution for your project – and how ZION can support you with stable quality, flexible customization. What is a Fiber Patch Cable?

A fiber patch cable is a fiber optic cable with connectors on both ends. They are generally sold in large quantities, rather than custom -made, although quite special models are also.
