Vietnam Distribution Box Standards

Overview

Our boxes should be as resilient as that street food vendor riding out the seasonal. Distribution Box Solar power system is an indispensable part of the construction and installation of solar power systems. Plays an essential role in the solar power system with the task of transmitting or connecting the electricity generated from the solar power system by the Solar Inverter. Inside, it typically includes circuit breakers, busbars, and protection devices that manage. Products entering the Vietnamese market must meet the requirements of regulatory agencies such as the Directorate for Standards, Metrology and Quality (STAMEQ).
