

Waterproofing of distribution box outlet holes

Overview

Waterproof distribution box manufacturers tell you that the way to waterproof an outdoor distribution box is to first choose a distribution box made of waterproof material, seal the cable entry points, apply silicone sealant, install a weatherproof cover, use outdoor rated sockets. Usually, rubber sealing rings or sealants are used for sealing to effectively prevent the intrusion of rainwater, sand and dust. Here are some factors to take into account: Choose the right sized electrical boxes for your project's needs. Another electrician and I were talking about caulking the box and I mentioned installing drain holes.
