

What to connect to the other end of the switch s optical port

Overview

The LC-LC coupler is a device used to connect two fiber optic cables that are terminated with LC connectors. For those who are new to the world of optical cables or simply looking to connect one to a switch, this step-by-step guide will provide you with all the necessary information and instructions to successfully complete the process. We have existing core switch model C9300-NM-8X, we are extended small office same. Switch optical port intercommunication means that the optical fiber ports of two switches are connected to each other to achieve the purpose of network connection. Which connectors required at each end of the new fibre (LC?

SC?

FP?

etc?

?

?

Which type of switch do I need?

Any suggestions of suitable POE switch?

Any other accessories required in the shed or the garage to connect to a new switch at the other end?

(see bubble #2?

and #3?

) 2- How to physically.

What to connect to the other end of the switch s optical port
