

Wiring configuration of circuit breakers in residential distribution boxes

Overview

The following tutorial shows how to wire 120V single phase breaker box installation in home. To do so, simply mount and connect a single pole (15A or 20A) circuit breaker to any of the hot busbar (out of hot 1 or hot 2) with the help of metal. NEC wiring color codes or other applicable color codes related to general practice or specific area.
